Make It Your Home
Home is our personal retreat, the private space where we share special time with family and friends.

It is a reflection of our lifestyle, our attitudes and the things that mean the most to us. As our lives and tastes change, our home evolves with us – always in synch with our current needs.

USM Modular Furniture is designed to accompany us through different phases of life. It adjusts to new demands, ready to take up different functions in our home – a constant in our ever-shifting lives. On the following pages we present the diverse world of USM: from minimal to eclectic, from functional to decorative. Always modular and adjustable. Furniture for a lifetime made with great care in Switzerland.

List prices in USD $ do not include sales tax. Prices valid as of January 1, 2018.

Core values

Form follows you
Unlike many static design classics, USM Haller is an evolving system, celebrating individuality by adapting design and function to its user. For more than 50 years, flexibility, durability and consequently sustainability are core values of the USM brand. USM Modular Furniture is designed to be reconfigured – at any time.

Sustainable concepts and actions
Developing solutions that respond to changing needs while remaining environmentally conscious has always been a USM philosophy. Since the beginning, and throughout USM’s development, handling energy, emissions, materials and production methods in a responsible manner has been a key mission. In this regard, the longevity of USM products is of utmost importance. The longer the product can be used, the less impact it has on the environment. High-quality, durable materials, manufactured with the latest environmentally friendly technologies, guarantees a long, useful life for our product.
**Made in Switzerland**

Founded in 1885, USM is a family business now in its fourth generation. «Made in Switzerland» to us is both a promise and an obligation. It stands for precision, quality, dependability, first-rate materials, careful workmanship and total commitment – on behalf of customer interest and out of respect for the environment.

**Worldwide services**

USM provides trained specialists in furniture configuration, delivery and installation to ensure professional customer support. For USM assembly and repair, contact us directly or one of our 400 authorised sales partners in 40 countries, guaranteeing top-quality service around the world. Our modular system embodies dependability, and our customer service guarantees that you will receive quick, personalised answers to your questions. For customized advice, do not hesitate to visit our showrooms. USM has established a prominent reputation and international presence with flagship stores in Bern, Berlin, Düsseldorf, Hamburg, London, Munich, New York, Paris, Stuttgart and Tokyo that showcase local culture and offer technical support.

USM Haller E

A modular structure of your design, either completely or partially equipped with e-Balls and e-Tubes, is connected to a source of electricity. The structure itself conducts the low voltage electricity to the desired location using the e-Balls, e-Connectors and e-Tubes to form a circuit. USB chargers or light sources can be snapped into place in pre-cut recesses. The power supply is drawn from any point near the ground. The power supply cable is attached to a Haller e-Ball, and the power adapter is subsequently tucked underneath the furniture until only the operating switch remains visible. From this point the power supply requires no further cables but rather is integrated into the structure of the furniture.

1 Glass Panel
   Glass elements can be illuminated throughout.

2 Without Metal Paneling
   Compartments without metal paneling can be completely illuminated.

3 With Metal Paneling
   Compartments with metal paneling can be illuminated from the front.

4 Compartment with an Extension Shelf
   The entire compartment with an extension shelf can be illuminated.

5 Drop-Down and Extension Door
   Via the “Light When Compartment Is Open” function, the light automatically turns on when the door is opened.

6 Angled Shelf
   The presentation space is illuminated from the front.

7 Floor Lighting
   With floor lighting, the light shines at a 25-degree angle under the furniture.

8 Ambient Lighting
   The light is directed vertically towards the back, illuminating the surroundings with a warm glow.

9 e-USB Charger
   It can be integrated in the same places as the e-Lights.

e-Elements

1 e-Lights
   Dimmable, available in
   - Warm white 2700 Kelvin
   - Cold white 5700 Kelvin
   Both with or without the "light at compartment opening" function.

2 e-USB Charger
   Provides a voltage of 5 volts to the connected device.
   (Capacity: 6.5 W)

3 e-Dummy
   Sleek, black e-Dummy element close recesses that are still unutilised.
   If a piece of furniture should later be supplemented with additional light, using e-Tubes (consuming), which are first equipped with e-Dummy elements, is recommended.

4 e-Tube (power outlet)
   Tubes with recesses for e-Lights, e-USB chargers or e-Dummy elements that can be easily snapped into place or replaced.
   14"D, 1 recess
   20"D, 2 recesses
   30"D, 3 recesses

5 e-Tube (conductive)
   The conductive e-Tube serves to conduct the electricity if no inserts are desired in this location. It is available in lengths of 30", 20", 16", 14", 10" and 7".

6 e-Ball, e-Connector
   To enable the flow of electricity, the ball and connector were refined. The exterior dimensions remain unchanged.
   The distinguishing feature of the ball is the black insulation ring.

7 e-Power Supply
   Includes dimmer at the operating switch. Transforms the power supply voltage to 24 volts.
   (Capacity: 60 W)

Engineered & Made in Switzerland.
Designed more than 45 years ago, the USM Haller Table still embodies timeless elegance. Its clean lines perfectly harmonise with the modular furniture system of the same name.

Each desk (except free-standing) of the USM Kitos M and E family offers integrated smart solutions for electrification.

Why USM Kitos M?
The “M” in its name stands for mechanical spring-loaded height adjustment; adjustment time approx. 1 sec. with zero energy consumption. This system is more than 10 times faster than the electronic equivalent and has an extremely long operating life.

Why USM Kitos E?
Maximum functionality and captivating design – USM Kitos E unites all requirements in one modern workplace: continuous height adjustability and maximum stability. A distinction is made between fixed and motor-driven legs in the E1, E2 and E3 models.

USM Kitos M
